# **In Campus Training Programme on ESG and Sustainable Finance**

**(16to 18 July 2025)**

**Introduction:** ESG stands for Environmental, Social and Governance. Investors are increasingly applying these non-financial factors as part of their analysis process to identify material risks and growth opportunities. The three pillars of ESG are: 1. Environmental – this focus on the organisation's impact on the planet. 2. Social – analyses the impact an organisation has on people, including staff and customers and the community. 3. Governance – deals with various aspects of governance and transparency. ESG factors are becoming important components in the financial landscape.

ESG involves pursuing responsible and ethical business practices with a focus on social, environmental, and economic development. This ESG-enabled lens allows an organization to manage the risks and opportunities created by changes in environmental, economic, and social systems. Sustainable finance refers to the process of taking environmental, social and governance (ESG) considerations into account when making investment decisions in the financial sector, leading to more long-term investments in sustainable economic activities and projects. For example, sustainable funds, green bonds, impact investing, microfinance, active ownership, credits for sustainable projects. This training programme on ESG and sustainable finance will provide a critical understanding of relevant environmental, social, and governance issues that affect the business and ethics.

**Objectives:** By the end of the programme, the participants would be able to:-

- ❖ Explain the concept of Sustainability and SDGs
- ❖ Describe the ESG Concepts and framework
- ❖ Explain various taxonomy related to ESG & Sustainability
- ❖ International and National ESG & Sustainability Frameworks and standards for disclosure and reporting
- ❖ Explain the trends in ESG & Sustainable Finance Instruments
- ❖ Risks & Opportunities in India under ESG Framework
